PAVITHR JAIN

Hyderabad | 6303628188 | pavithrjain19@gmail.com

Summary

Software Developer with hands-on experience in designing, developing, testing, and maintaining software features across the Software Development Lifecycle (SDLC). Proficient in JavaScript and web technologies, with strong analytical, debugging, and troubleshooting skills. Experienced in collaborating with cross-functional teams, supporting application stability, and documenting technical processes while delivering moderate-complexity features in an Agile environment.

Professional Experience

Hitech India Private Limited – Hyderabad **(Aug *2024 – Present)***

- Designed, developed, tested, and deployed application features following SDLC best practices.
- Delivered moderate-complexity features while ensuring application stability and timely releases.
- Troubleshot production issues and implemented fixes to support daily operations.
- Collaborated with cross-functional teams and documented technical workflows and processes.

Qurinom Solutions – Hyderabad **(Dec *2023 – Jul 2024)***

- Developed and maintained responsive web applications using JavaScript, HTML, and CSS.
- Implemented new features, resolved defects, and improved usability through testing and debugging.
- Ensured cross-browser compatibility and performance optimization across multiple devices.

PraiseArray – Pune **(Feb *2023 – Aug 2023)***

- Contributed to application development and maintenance across multiple SDLC phases.
- Assisted with feature enhancements, issue resolution, and basic integrations.
- Worked closely with team members to deliver stable and reliable application updates.

Projects

Portfolio Website - Link

- Developed a personal portfolio website to showcase skills, projects, and experiences using modern web technologies.
- Designed responsive layouts and smooth navigation for multiple screen sizes.
- Applied clean navigation, reusable components, and optimized layout structure for better readability and accessibility.

ChatWise - Link

- Developed a single-page frontend chat interface with a modern and intuitive UI using JavaScript, HTML, and CSS.
- Implemented dynamic UI updates for chat messages using DOM manipulation and event handling.
- Designed clean layouts, input interactions, and message components to simulate chat application behaviour.
- Ensured responsive design and smooth user interactions across different screen sizes.

DevRix - Link

- Built a frontend utility application providing developer-focused tools using JavaScript.
- Integrated multiple interactive components to improve usability and functionality.
- Applied efficient DOM updates and structured logic for dynamic data rendering.

Skills

- **Front-End** - HTML5, CSS3, JavaScript, React, Angular, Redux.
- **Back-End** - Node, Express.
- **Databases -** MongoDB.
- **Additional** - Material UI, GitHub, Testing frameworks (Jest).

Education

- **Bachelor of Technology –** Guru Nanak Institute of Technology, *Hyderabad – May 2022*
- **Intermediate -** Nava Chaitanya Junior College, *Hyderabad – April 2018*
- **School -** Oxford Grammar School, *Hyderabad – Mar 2016*

Achievements

- Consistently delivered assigned features and bug fixes within sprint timelines while adhering to SDLC best practices.
- Actively identified, debugged, and resolved application issues to maintain stability and improve overall reliability.
- Quickly adapted to new codebases, tools, and development workflows across multiple projects and teams.
- Collaborated effectively with cross-functional teams to support feature development, testing, and smooth releases.
